When the kidneys are not doing their duty they allow impurities to accumulate and be converted into uric acid and other poisons, which will cause serious trouble unless they are driven from your system.

If you eat meat regularly, you should flush the kidneys occasionally with SEVEN BARKS, as meat forms uric acid, which clogs the pores, so they cannot throw off the poisons. Says Vote a Protest at Senator Johnson's Extreme Opposition to League of Nations.

New York, May 6 .- Herbert Hoov er issued a statement here yesterday afternoon in which he expressed surprise that "under the circumstances so large a vote should have been cast in California for the delegates favoring my nomination."

"For my friends, in entering my name, introduced no personal issue but test at Senator Johnson's extreme op position to any league to prevent wa and reduce armaments," said the statement. "With a group of amateur clubs only a month old, they were, of course, handicapped, in opposing the regular party organization, but the real situation is that the people of California have been much torn between their loyalty and friendship to the senator for his able rescue of the state during his governorship from vicious corpor ation control, and his too narrow vision on our international necessities. The fact that in these circumstances more than a third of the party protested against this latter view should strengthen the support of the Repub-lican majority in the Senate."
